TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES¹

§ 36.6a Procedure upon receipt of claim.

(b) *Action of commanding officer.* After an administrative examination to determine whether or not the claimant has supplied the necessary information, the commanding officer will refer the claim to a board of one or more officers, or, in the case of a claim not requiring such action, will forward it through channels to the Chief of Finance. In case the claim arose in connection with an accident involving a Government-owned motor vehicle, the commanding officer will refer the claim and his copy of the corresponding report of investigation, War Department Form No. 39 or Standard Form No. 27 (Investigating Officer's Report—Accident, Motor Transportation), with its attached copies of sworn statements, to the investigating-surveying officers appointed under paragraph 17, AR 850-15,² who will constitute a board to investigate and report upon the claim. (R.S. 161, 5 U.S.C. 22) [Par. 7b, AR 35-7020, Dec. 1, 1938, as amended by Cir. 84, W.D., March 23, 1942]

§ 36.7 Action to be taken by board of officers.

(b) *Testimony to be reduced to writing.* (1) All testimony heard by the board will be reduced to writing and a transcript thereof certified as correct by the senior member of the board, and except as otherwise provided signed copies of all sworn statements or other evidence obtained by the board will be incorporated in the report of the proceedings. The signed originals of such sworn statements or other evidence will be attached to the original of the board's report and certified true copies will be prepared and attached to each copy of the report. Claimants should not be requested to furnish sworn claims in more than one originally executed copy, nor should repair bills or estimates be required to be authenticated under oath or submitted in several copies. (R.S. 161; 5 U.S.C. 22) [Par. 8b (1), AR 35-7020, Dec. 1, 1938, as amended by Cir. 84, W.D., March 23, 1942]

§ 36.19 Procedure of § 36.2 to 36.8 applicable. Insofar as applicable, the procedure set forth in § 36.2 to 36.8 will be adopted as to claims arising under the provisions of the act cited in § 36.18 (a). If the claim is in connection with an accident involving a Government-owned motor vehicle, the board of officers to investigate the claim will whenever practicable be the board appointed under the provisions of paragraph 17, AR 850-15.² Otherwise the board of

¹ §§ 36.6a (b), 36.7 (b), 36.10, 36.20 (b), 37.3, and 37.4 (b) are amended.

² Administrative regulations of the War Department relative to military motor vehicles.

officers to investigate the claim will be appointed by the commanding officer of the troops involved, e. g., the commanding general of an army in cases of claims arising as the result of army maneuvers. (Act Feb. 12, 1940, Public No. 415, 76th Congress) [Par. 3a, AR 35-7030, May 15, 1940, as amended by Cir. 84, W. D., March 23, 1942]

§ 36.20 *Conditions precedent to payment.*

(b) Each claim must be substantiated by a report of a board of officers appointed in accordance with § 36.19. (Act Feb. 12, 1940, Pub. Law 415, 76th Congress) [Par. 5b AR 35-7030, May 15, 1940, as amended by Cir. 84, W. D., March 23, 1942]

§ 37.3 *Method of ascertaining amount of damage.* (a) In case the damaged article of Government property (e. g. motor vehicle, building, etc.) is recommended or has been ordered by competent authority to be repaired and continued in service the amount of damage will be determined as follows:

(b) In case the damaged article of Government property is not recommended or ordered to be repaired and continued in service, the amount of the damage will be determined as follows:

(1) Ascertain the fair value of the article immediately prior to the time of the damage, taking into consideration the original cost price, date of purchase, period of use, and depreciation in service. From this amount, subtract the salvage value of the article in its damaged condition. The difference obtained will be taken as the amount of the damage, except as provided in subparagraph (2) below.

(2) In case the amount of damage determined under subparagraph (1) above exceeds the estimated cost of repairs determined under paragraph (a) of this section, the amount computed in accordance with paragraph (a) above will be taken as the amount of the damage regardless of the fact that repairs will not actually be made. (R.S. 161; 5 U.S.C. 22) [Par. 3, AR 35-7220, March 10, 1936, as amended by Cir. 84, W. D., March 23, 1942]

§ 37.4 *Demand upon defendant for settlement of claim.*

(b) After completing the investigation, ascertaining the amount of the damage, and fixing the responsibility therefor, the surveying officer or board will, except in cases where the damage has been completely repaired by or on behalf of the person responsible for it, or when settlement in full has been made in compliance with the demand made under paragraph (a) above, cause a demand in writing for the settlement in full of any claim found to exist in favor of the Government to be presented by an officer or other representative to the defendant. This demand will contain a full description of the claim and the grounds thereof. (R.S. 161; 5 U.S.C. 22) [Par. 4b, AR

In the Matter of Associated Motor Oils,
Inc., a Corporation, Also Doing Business Under the Name of Associated
Products Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23rd day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its

conclusion that respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Associated Motor Oils, Inc., its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its motor oils and greases, or any products of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or by implication, that Associated Motor Oils, Inc., owns, controls, or operates a refinery wherein its said products are made or refined;

(2) The use of any design, insignia, or emblem in advertising or on containers, labels, or in any other manner, which simulates the emblem or insignia of the Pennsylvania Grade Crude Oil Association;

(3) The use of the word "Pennsylvania" or any abbreviation or colorable simulation thereof, or the use of an outline of the State of Pennsylvania in advertising or on containers, labels, or in any other manner to designate or describe any oil product which is not composed wholly of oil derived from the Pennsylvania oil fields, provided, however, that in the case of a product composed in part of oil derived from the

Pennsylvania oil fields and in part from oil derived from other oil fields, such word or abbreviation thereof may be used as descriptive of the proportion of the oil derived from the Pennsylvania oil fields if there are used in immediate connection and conjunction therewith, in letters of at least equal size and conspicuousness, words or figures truthfully designating or describing the percentage of oil in said product which is derived from the Pennsylvania oil fields;

(4) Representing, directly or by implication, that any oil product sold and distributed by the respondent which is not composed in its entirety of oils produced and having their origin in the Pennsylvania oil fields, is a pure Pennsylvania motor oil;

(5) Representing, directly or by implication, that the respondent's oils and greases have been tested and approved by a disinterested laboratory as to quality, value and efficacy in use, unless said oils and greases have been tested and approved by a bona fide, disinterested automotive oils testing laboratory;

(6) The use of any letters or numbers developed by the Society of Automotive Engineers which do not indicate the true, relative viscosity of respondent's products;

(7) Representing, directly or by implication, that its product now designated "Zeroil Motor Oil," or any motor oil of similar character or quality, will flow more freely and lubricate more perfectly in lower temperatures than many

other oils; or that its product now designated "Three Star Penn Motor Oil," or any motor oil of similar quality or character, will not thin out, break down, or sludge under service or that it will hold its body under high temperatures; or that its product now designated "Penn-Durance Motor Oil," or any motor oil of similar quality or character, will not break down or thin out, or that it is a super-refined oil; or that the use of its product now designated "Ultra Penn," or any motor oil of similar quality or character, as compared with other standard motor oils, will effect a saving up to 50%, or any substantial percentage, of motor oils, or result in a saving of 10%, or any substantial percentage, of the usual wear on motor parts; or that its product now designated "Graf-O-Lyne," or any motor oil of similar quality or character, will consistently double, or to any substantial extent increase, motor life and reduce the danger of scored cylinders more than any other lubricants on the market.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[Docket No. A-1024 Part II]

PART 322—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 2

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE EXAMINER'S PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW AS MODIFIED IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 2

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on August 22, 1941, by District Board 2, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of price classifications and effective minimum prices for the coals of certain mines in District 2.

Pursuant to an Order of the Director dated October 21, 1941, 6 F.R. 5768, temporary relief was granted in Docket No. A-1024 to certain mines listed in Supplement R-I and R-II attached thereto and made a part thereof. Relief was denied to several other mines and it was directed that they be given separate consideration. To that end, that portion of Docket No. A-1024 which related to them was severed from the matter and designated as Docket No. A-1024, Part II. By further Order of the Director dated October 21, 1941, 6 F.R. 5785, temporary relief was also granted

to certain mines in Docket No. A-1024, Part II as set forth in Supplements R and T attached thereto and made a part thereof.

A petition of intervention was filed by Fred S. Geer, Inc., a code member in District 2, operating the Sunnyside Mine (Mine Index No. 2024) and Mt. Nebo Mine (Mine Index No. 2125), requesting that the rail shipping points for these mines be designated as East Palestine, Ohio, for shipment over the Pennsylvania Railroad, and Negley, Ohio, for shipment over the Pittsburgh, Lisbon and Western Railroad.

Pursuant to an Order of the Director and after due notice to all interested persons, a hearing in this matter was held on November 18, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. District Board 2, Fred S. Geer, Inc., and Rothey Bros., Inc., appeared.

On November 27, 1941, a motion was submitted by District Board 2, requesting leave to amend its original petition by eliminating therefrom the proposal for classifications and effective minimum prices for the Rothey Brothers' No. 1 Mine (Mine Index No. 2115) for the reason that the evidence presented at the hearing on behalf of this company was at variance with information previously

submitted by said company to the District Board and upon which the proposals of the District Board were predicated. On the same day a petition was filed by Fred S. Geer, Inc., requesting leave to amend its petition of intervention to designate the Freeport and Mahoning Seam as Freeport No. 6 and Freeport No. 7 Seams, respectively; and requesting further that the Director assign price classifications separately for the coals produced in each seam in the Sunnyside and Mt. Nebo Mines.

Under date of January 22, 1942, Examiner McGown made his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations ("Examiner's Report"), in which it was recommended, *inter alia*, that the seams of coal in the Sunnyside and Mt. Nebo Mines be designated as the Freeport No. 6 and Freeport No. 7 and that the loading points for these mines be established at East Palestine, Ohio, and Negley, Ohio, respectively. On February 12, 1942, exceptions were filed by Fred S. Geer, Inc. to the Examiner's Report, insofar as it concerned the loading points and price classifications for the coals of his Sunnyside and Mt. Nebo Mines produced for all shipments except truck. No exceptions were filed by it to that part of the Examiner's Report concerning the seam designations of these mines nor to the Examiner's recommended minimum prices for its Mt. Nebo coals for truck shipment.

1. *The Examiner's Report concerning the Sunnyside and Mt. Nebo Mines.* The Examiner found that prior to the filing of the District Board's original petition, Fred S. Geer, Inc. ("Geer") had submitted to the District Board three possible loading points for the Sunnyside and Mt. Nebo Mines producing coals in Pennsylvania, and that through a misunderstanding the District Board had selected Darlington, Pennsylvania, as the loading point to the exclusion of East Palestine, Ohio, and Negley, Ohio, although Geer had no loading facilities at Darlington. The Examiner noted that in addition to the expense of building loading facilities at Darlington, Geer would have the continued additional expense of a higher haulage cost for the approximate 8-mile haul from these mines to Darlington as compared with the 2-mile haul from the Sunnyside Mine to East Palestine and the 1 1/4-mile haul from Mt. Nebo Mine to Negley, at both of which destinations Geer had available loading facilities.

The Examiner found further that the use of East Palestine and Negley, Ohio, as loading points for Geer's Pennsylvania produced coals would not give Geer a competitive advantage over Ohio producers as the Geer coals competed only with those Ohio coals produced by code members who used the East Palestine and Negley loading facilities, shipped to the same market areas, and produced coals comparable in quality with the Geer coals. The Examiner found that, in fact, these Ohio producers would have an advantage over Geer of lower freight rates for coals shipped into Ohio market areas, but that Fred S. Geer, President of Fred

S. Geer, Inc., had testified that he would not object to the presently effective delivered prices for the Sunnyside and Mt. Nebo coals if the loading points were changed.

2. *Geer's exception to the Examiner's Report.* Geer claimed in its exceptions that there was no foundation in the record for the statement by the Examiner in his Report to the effect that Fred S. Geer testified that he would not object to the presently effectively¹ delivered prices for the Sunnyside and Mt. Nebo coals if the loading points were changed. In its brief in support of its exceptions, Geer specifically referred to testimony by the witness Fred S. Geer to the effect that he would acquiesce only in prices for coals from the Sunnyside and Mt. Nebo Mines which would result in the same delivered prices to Market Areas 11 and 13 as those applicable to comparable coals produced by neighboring mines just across the state line in Ohio which were also loaded at Negley and at East Palestine and entered into competition therewith. On Examination of the record, I find that as Geer contended, the witness Fred S. Geer had stated that effective minimum prices should be established for the Geer coals which would result in the same delivered prices therefor in Market Areas 11 and 13 as competing Ohio coals of the same quality and loading at the same points. This exception goes, however, only to the prayer for relief and is not to be considered as bearing on the necessity therefor.

Geer also excepted to the minimum prices recommended by the Examiner for its coals produced for all shipments except truck on the ground that these recommended prices if adopted would result in delivered prices for the Sunnyside and Mt. Nebo coals in excess of the delivered prices in the same consuming markets for coals produced by neighboring mines in District 4 and thereby deprive Geer of its existing fair competitive opportunities. Geer stated in its brief that the record indicated that the coals produced from the Sunnyside and Mt. Nebo mines on the Pennsylvania side of the state line were comparable with coals produced not only

by certain mines of Fred S. Geer, Inc., just across the line in Ohio but also with the coals produced there by a number of competing mines. Geer also stated that the coals produced at these neighboring mines, whether located within Ohio or Pennsylvania, were loaded at Negley or East Palestine, Ohio, and were sold principally in Cleveland (Market Area 13) and Youngstown (Market Area 11) and at the Great Lakes ports, and that the mere fact that some mines were a few yards to the east of the state line and other mines a few yards to the west thereof did not justify any difference in delivered prices as between the coals they produce. Hence, Geer contended, effective minimum prices which resulted in discrimination between the prices of the coals from these respective mines when delivered in their principal consuming markets were inconsistent with the requirements of the Act. Geer contended further that to fix effective minimum prices for the Sunnyside and Mt. Nebo Mines which would result in delivered prices in Market Areas 11 and 13 equal to those for coals from adjacent Ohio mines would not materially affect other mines in District 2, with the exception of one mine, which was the only remaining mine on the Pennsylvania side immediately adjacent to the Sunnyside and Mt. Nebo Mines, and that that mine would be exhausted by the end of the winter.

However, the record fails to disclose that there was a past movement of coals from the producing district in which its Sunnyside and Mt. Nebo Mines are located to the destinations in Market Areas 11 and 13 for which it seeks relief. The price classifications temporarily established for the coals of these two mines and recommended by the Examiner seek to put them on a fair competitive basis with other District 2 coals. If intervenor could show that the past movement of other District 2 coals (comparable to Sunnyside and Mt. Nebo coals) was such that the existing fair competitive opportunities could not be preserved unless minimum f. o. b. mine prices be established for these coals so as to allow them to deliver in Market Areas 11 and 13 at

a price parity with District 4 coals shipping thereto, then its request for relief—a loading point in District 4—might be granted. But such is not the case.

3. *Other mines.* The Examiner in his Report also found that price classifications and loading points proposed by District Board 2 for certain other mines were proper; that its petition in so far as it concerns the No. 1 Mine of Rothey Brothers, Inc. (Mine Index No. 2115) should be dismissed; and that the loading point for the John Minnich Mine (Mine Index No. 901) should be Queens Junction on the Western Allegheny Railroad. No exceptions or supporting briefs have been filed in these other matters.

After a review of the record and upon the basis of the foregoing, I conclude that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, are proper and should be adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That § 322.7 (*Alphabetical list of code members*), § 322.9 (*Special prices—(c) Railroad fuel*) and § 322.23 (*General prices*) in the Schedules of Effective Minimum Prices for District No. 2 for All Shipments Except Truck and for Truck Shipments be and they hereby are amended to include the seam designations, shipping points, freight origin group numbers, price classifications, and effective minimum prices set forth for the mines listed in Supplements R-I, R-II, and T attached hereto and made a part hereof.

It is further ordered, That the prayers for relief contained in the petitions filed herein be and they hereby are granted to the extent set forth on the attached Supplements R-I, R-II, and T and in all other respects denied.

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT NO. 22

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 22 FOR REVISION OF CERTAIN PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE MILLS MINE (MINE INDEX NO. 202) IN DISTRICT NO. 22 AND FOR THE ESTABLISHMENT OF A MINIMUM PRICE OF 95 CENTS PER TON FOR ¾" SLACK COAL OF THE A. C. M. #4 MINE (MINE INDEX NO. 1) IN THAT DISTRICT FOR SALE IN CARLOAD LOTS TO THE GREAT NORTHERN RAILWAY COMPANY

the District Board proposed a change in the classification of the Mills Mine, Mine Index No. 202, from Subdistrict 1 to Subdistrict 9 in District No. 22, together with a revision of the effective classifications and minimum prices for truck shipments for the coals of that mine; and in addition the Board requested the revision of the minimum price for ¾" slack coal produced by the Gerber Coal Company at its A. C. M. #4 Mine, Mine Index No. 1,

when sold in carload lots to the Great Northern Railway Company for railway use.

Pursuant to appropriate orders of the Division, and after notice to all interested parties, a hearing in this matter was held before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room of the Division at Cheyenne, Wyoming. All interested parties were afforded an opportunity to be pres-

adding thereto Supplement T, which supplement is hereinafter set forth and hereinafter made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

ent, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board No. 22 appeared. While the Consumers' Counsel intervened, it was not represented at the hearing; although later, on March 2, 1942, it filed a brief in support of its statement that any revision to grant the relief requested should be applicable to all code members in the District. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board No. 22 herein requested a change in the sub-district designation of the Mills Mine, Mine Index No. 202, operated by Arthur Mills, a code member in District No. 22, from Subdistrict No. 1 to Subdistrict No. 9, and the establishment of minimum prices and classification for that mine as are established for mines in Subdistrict No. 9. The second request of the District Board was for the establishment of a minimum price of 95 cents per ton f. o. b. the mine for $\frac{3}{4}$ " slack coal produced by the Gerber Coal Company, operating the A. C. M. Mine #4 (Mine Index No. 1) in Subdistrict No. 7 of District No. 22, when sold in carload lots to the Great Northern Railway for railway use. It appears that this size coal, $\frac{3}{4}$ " slack, is at present included in Size Group No. 11, for which the established minimum price is \$1.00 per ton f. o. b. the mine, for rail shipments.

The original petition of District Board No. 22 was amended on December 22, 1941. By its petition dated December 22, 1941, the District Board amended that portion of its original petition requesting the establishment of a special price for $\frac{3}{4}$ " slack coal of the Gerber Coal Company when intended for railway use. The amendment requested that immediate temporary relief be granted. The Division on January 10, 1942, 7 F.R. 230, denied the prayer of the petitioner for immediate relief.

With regard to the first part of the petition, the testimony of D. F. Buckingham, witness for the District Board, was to the effect that the Mills Mine operates in the McCleary Seam and is at present the only mine operating in that seam. He further stated that in his judgment the mine was improperly classified in the proceedings held in General Docket No. 15 in that the McCleary Seam coal is inferior in quality to coals from other seams in Subdistrict No. 1. He expressed the belief that the Mills Mine should be grouped with the Mammoth Seam mines in Subdistrict No. 9. It appears from the record that the transfer of this mine from Subdistrict No. 1 to Subdistrict No. 9 would result in more properly reflecting the relative value of its coals and would properly coordinate it with other coals produced in District No. 22.

Regarding the second part of this petition the claim of the representative of District Board No. 22, that the requested relief is desired in order to provide for surplus or emergency coal for which there is no other market and which the Great Northern Railway Company has refused to purchase at the minimum price now established for that size, is not entirely borne out by the record. While it appears that at the present time the Gerber Coal Company is producing $\frac{3}{4}$ " slack as a result of its production of other sizes, it also appears that by a change in the screening equipment of the Gerber Coal Company, the size of the coal resulting from the production of larger sizes would be $\frac{1}{2}$ " slack, and it further appears that the Railway Company is perfectly willing to buy $\frac{1}{2}$ " slack at the effective minimum price for such coal of 80 cents per ton.

This code member is the only code member in District 22, according to the information of the District Board, that has any direct rail connection with the Great Northern Railway and, therefore, no other producer would be adversely affected by the relief sought. However, the mere fact that no other producers in the subdistrict are at present so situated as to be affected, does not justify the granting of a preferential price to any one consumer. It appears that the Great Northern Railway Company is not the only market for this $\frac{3}{4}$ " slack, although it was testified that that market is declining because of the inroads of natural gas and oil. Moreover, to grant this relief is to grant a preferential price to one consumer. Consumer inequality is to be avoided wherever possible.¹

¹ Cf. Docket No. A-160; Docket No. A-164; 6 F.R. 4247, 5300.

Upon the basis of the uncontroverted evidence, therefore, I find that the requested change in subdistrict designation of the Mills Mine, Mine Index No. 202, from Subdistrict No. 1 to Subdistrict No. 9 and the establishment of classifications and minimum prices for the mine in Subdistrict No. 9 are proper and should be granted, that such subdistrict designation, classifications and minimum prices conform in all respects as those heretofore established for comparable coals in District No. 22, and will preserve the fair competitive opportunities for the producers of such coal.

However, based on the record, I find that the request of District Board No. 22 for the establishment of a minimum price of 95 cents per ton for $\frac{3}{4}$ " slack coal produced by the Gerber Coal Company for sale only in railroad carload lots to the Great Northern Railway Company for railway use would constitute the establishment of a preferential price for a particular consumer and is, therefore, improper.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof § 342.4 (Code member price index) is amended by adding thereto Supplement R, and § 342.21 (General prices) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That the petition of District Board No. 22 for the establishment of a minimum price of 95 cents for $\frac{3}{4}$ " x 0 slack coal produced by the Gerber Coal Company for railway use be and the same hereby is denied.

Dated: March 21, 1942.

Coordinator of Inter-American Affairs.

MARCH 27, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the surname.

Personal name prefixes such as de, la, von, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in other languages:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.

Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(3) The indication of an address for a name on the list is not intended to exclude other addresses of the same firm or individual. A listed name refers to all branches of the business in the country.

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 933—COPPER

INTERPRETATION NO. 2 OF CONSERVATION ORDER M-9-C¹ AS AMENDED, CURTAILING THE USE OF COPPER IN CERTAIN ITEMS, TO THE PRINTING, PUBLISHING AND RELATED INDUSTRIES

Introduction. Copper Conservation Order M-9-c as amended December 10, 1941, restricts the use of Copper and Copper Base Alloy for decorative purposes under paragraph (a). This paragraph prohibits the use of Copper or Copper Base Alloy for the purposes referred to therein after December 31, 1941, in certain instances and in other instances after March 31, 1942. If this paragraph permits the use of Copper or Copper Base Alloy at all after December 31, 1941, it restricts its use during the period from October 15, 1941, to March 31, 1942 to either the amount of Copper or Copper Base Alloy used during the last quarter of 1940 or to a fourth of the amount used in the year 1940, with a proviso giving a different base period if the particular manufacturer was not in business in 1940.

Paragraph (c) of the Order governs the use of Copper and Copper Base Alloy in the printing, publishing and related industries where such use is not decorative. This paragraph restricts the use of Copper or Copper Base Alloy in any quarter to an amount not in excess of 70% of the use in the last quarter of 1940, 17½% of the use in the year 1940 or 50% of the use in the third quarter of 1941.

Some confusion exists today on the question of what constitutes the use of Copper or Copper Base Alloy in these industries and as to whether particular uses are deemed decorative and as a result covered by paragraph (a).

Interpretation. All use of bronze powder, bronze paste, bronze leaf and bronze ink in the printing, publishing and related trades is deemed decorative and must stop on March 31, 1942, under the terms of Copper Conservation Order M-9-c in its present form. In addition, since December 31, 1941, no printer, publisher or lithographer has been entitled to use any bronze powder, bronze paste, bronze leaf or bronze ink which he did not have in his inventory on or before December 1, 1941, and even the material in his inventory on that date could only be used at the curtailed rate provided in paragraphs (a) (4) and (a) (1) of the Order.

Paragraph (c) of the Order restricts the aggregate use of Copper or Copper Base Alloy by weight employed in the production of plates by photo and other engravers; printing plate shells by electrotypers; machine and foundry type matrices; brass bookbinders' and embossing dies; wallpaper copper and brass rolls; block-cutting brass; to a percent-

age of the weight of Copper or Copper Base Alloy used during a selective base period. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. SUPPLEMENTARY CONSERVATION ORDER
M-9-C-3

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Copper for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 933.8 *Supplementary Conservation Order No. M-9-c-3—(a) Curtailment of certain uses of copper in printing.* During the period between March 31, 1942 and May 31, 1942, no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes more than 16⅔% of the amount of Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf used by him in printing, paper coating and similar processes during the entire year of 1941; and no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes at any time any Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf delivered to him after the effective date hereof.

(b) *Prohibition of certain uses of copper in printing after May 31, 1942.* After May 31, 1942, no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes any Bronze Powder, Bronze Paste, Bronze Ink and Bronze Leaf.

(c) *Reports.* Each Person who uses in relief, planographic or intaglio printing or in stamping, dusting or similar processes any Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf after the effective date hereof, shall file with the War Production Board on or before April 20, 1942 a letter in quadruplicate describing his inventory of Bronze Powder, Bronze Paste and Bronze Ink in pounds and his inventory of Bronze Leaf by thousands of sheets of a stated size, as of the close of business on March 31, 1942, and further describing the amount of his use of Bronze Powder, Bronze Paste and Bronze Ink in pounds and his use of Bronze Leaf by thousands of sheets of a stated size, in relief, planographic or intaglio printing or in stamping, dusting or similar processes during the year 1941.

(d) *Communications to War Production Board.* All reports required to be

filed hereunder, and all appeals and communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-9-c-3.

(e) *Violations.* Any Person who willfully violates any provision of this Order, or who by an act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Appeal.* Any Person affected by this Order who considers that compliance therewith would impair war work, may appeal by letter to the War Production Board, Washington, D. C., Reference M-9-c-3, setting forth the pertinent facts and the reasons why he deems that obedience to the terms of this Order will interfere with war work.

(g) *Effect on Order M-9-c.* After the effective date of this Order, the Order shall govern the use of Bronze Powder, Bronze Paste, Bronze Ink and Bronze Leaf in relief, planographic or intaglio printing or in stamping, dusting or similar processes to the exclusion of Conservation Order M-9-c.¹

(h) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the use of Bronze Powder, Bronze Paste, Bronze Leaf and Bronze Ink in relief, planographic or intaglio printing or in stamping, dusting or similar processes, whether or not such use is pursuant to a contract made prior or subsequent to the effective date hereof, or whether or not such use is pursuant to a contract supported by a preference rating.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

work may appeal to the "War Production Board, Washington, D. C., Ref: L-64" setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

PART 1145—OFFICE SUPPLIES

GENERAL LIMITATION ORDER L-73

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other materials for defense, for pri-

vate account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1145.1 *General Limitation Order L-73*—(a) *Definitions*. For the purposes of this Order:

(1) "Office supplies" means manufactured products (other than furniture and machinery) designed for use in an office, notwithstanding their auxiliary use for industrial purposes.

(2) "Group I products" means the following types of office supplies: wire staples, whether preformed or continuous roll.

(3) "Group II products" means the following types of office supplies: clips, clamps, pins, and thumb-tacks; copy-holders; eyelet and round and flat-head fasteners; eyeleters; file fasteners; pencil sharpeners; punches and perforators; stapling and fastening machines.

(4) "Group III products" means the following types of office supplies: adhesive and gummed tape dispensers; arch and clip board files; calendar stands; desk accessories; inked ribbon spools and containers; list finders; rulers and yardsticks; staple removers; stationery sundries, not elsewhere classified.

(5) "Producer" means any person engaged in the fabrication, assembly, or any other operation or process connected with the manufacture of office supplies.

(6) "Prohibited materials" means copper, tin, nickel, chromium, zinc, cadmium, and crude rubber in any form whatever.

(7) "Federal specifications" means specifications (including emergency alternate specifications) approved from time to time by the Director of Procurement for use of all departments and establishments of the Federal Government, and any amendments thereof.

(8) "Iron and steel used" means the aggregate weight of iron and steel when first put into production in the manufacture of office supplies whether in the form of raw materials or as semi-processed or finished parts.

(9) "Preferred order" means any order or contract for office supplies to be delivered to or for the account of

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, and the Office of Scientific Research and Development;

(ii) The government of any of the following countries: The United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia;

(iii) Any agency of the United States Government for delivery to, or for the account of the government of any country listed above or any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act).

(b) *General restrictions*. (1) During the period of three months beginning

with the first day of the first calendar month following the date of issuance of this Order, no Producer shall use

(i) In the manufacture of Group I Products more iron and steel than 25% of the aggregate weight of all metals used by him in the manufacture of Group I products during 1940.

(ii) In the manufacture of Group II products more iron and steel than 20% of the aggregate weight of all metals used by him in the manufacture of Group II Products during 1940.

(iii) In the manufacture of Group III products more iron and steel and 12½% of the aggregate weight of all metals used by him in the manufacture of Group III products during 1940.

(2) During each period of three months, beginning with the first day of the fourth calendar month following the date of issuance of this Order until otherwise ordered no producer shall use

(i) In the manufacture of Group I products more iron and steel than 25% of the aggregate weight of all metals used by him in the manufacture of Group I products during 1940.

(ii) In the manufacture of Group II products more iron and steel than 15% of the aggregate weight of all metals used by him in the manufacture of Group II products during 1940.

(iii) In the manufacture of Group III products more iron and steel than 12½% of the aggregate weight of all metals used by him in the manufacture of Group III products during 1940.

(3) A producer having preferred orders may exceed the foregoing restrictions in any period of three months to the extent of the amount of iron and steel necessary to fill such preferred orders provided that his quota of iron and steel for the following three months shall be reduced by an equivalent amount of iron and steel.

(4) From the effective date of this Order, no producer shall use in the manufacture of any Group I, II or Group III products any prohibited materials except that zinc may be used for galvanizing to the extent necessary for practicable use and wear. This provision shall not apply to the use of prohibited materials which on the date of issuance of this Order have been processed beyond the first stage of cutting or stamping.

(5) From the effective date of this Order, no producer shall manufacture any Group I, Group II or Group III products which exceed the minimum requirements of applicable specifications, as defined in subparagraph (7), paragraph (a) hereof, in respect to any metal or other critical material contained therein.

(c) *Avoidance of excessive inventories*. No manufacturer of Office Supplies shall accumulate for use in the manufacture of Office Supplies inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of Office Supplies at the rates permitted by this Order.

(d) *Records*. All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection*. All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports*. Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Office shall from time to time request.

(g) *Violations*. Any person who willfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. 80).

(h) *Appeal*. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense work to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders*. Insofar as any other Order issued, or to be issued hereafter, restricts the use of any material in the manufacture of Office Supplies to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications*. All reports, appeals and other communications concerning this Order should be addressed to the "War Production Board, Washington, D. C. Ref.: L-73."

(l) *Effective date*. This Order shall take effect on the date of its issuance and continue in effect until revoked. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1162—DYESTUFFS

CONSERVATION ORDER NO. M-103

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of organic dyestuffs for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense;

§ 1162.1 Conservation Order M-103—

(a) *Restrictions on use of the organic dyestuffs.* (1) Curtailment to December 31, 1942, of dyestuffs appearing on List "A". Except as provided in paragraph (b) and paragraph (c) (2) hereof, no person shall hereafter sell or deliver any of the dyestuffs appearing on List "A", to any person, and no person shall use any of the dyestuffs appearing on List "A".

(2) *Curtailment in second quarter of anthraquinone vat dyes not on List "A".* No person, except as provided in paragraph (b) hereof, shall deliver to any other person, during the period beginning April 1, 1942, and ending June 30, 1942, an amount of anthraquinone vat dyes not appearing on List "A", and no person shall accept delivery of or use an amount of anthraquinone vat dyes not appearing on List "A", in excess of 12½ percent of the amount of such anthraquinone vat dyes delivered to such other person, or used by such other person, as the case may be, in the period from January 1, 1941, to December 31, 1941. For the purposes of this subparagraph, amounts of anthraquinone vat dyes shall be calculated in pounds of equivalent single strength anthraquinone vat dyes.

(3) *Restrictions on purchase and sale of all other anthraquinone dyes.* No person, except as provided in paragraph (b) hereof, shall deliver to any other person, during the period beginning April 1, 1942, and ending June 30, 1942, an amount of anthraquinone dyes other than those mentioned in (1) and (2) above and no person shall accept delivery of or use an amount of such anthraquinone dyes, in excess of 12½ per cent of the amount of such anthraquinone dyes delivered to such other person or used by such other person, as the case may be, in the period from January 1, 1941, to December 31, 1941.

(b) *General exception.* The prohibitions and restrictions contained in paragraph (a) shall not apply to the sale, delivery or use of dyestuffs for the manufacture of any item which is being produced under a specific contract or sub-contract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of such dyestuff to the extent em-

ployed is required by the specifications of the prime contract.

(c) *Restrictions on export.* (1) No producer may hereafter sell or set aside for export, during the period beginning April 1, 1942, and ending June 30, 1942, from the Continental United States, upon orders other than defense orders, in any calendar month, more dyestuffs requiring anthraquinone derivatives in their manufacture than 8 per cent of the total of such dyestuffs produced in such month by him.

(2) During the period from April 1, 1942, to June 30, 1942, notwithstanding the provisions of paragraph (a), but subject to the limitation of subparagraph (1) above, each producer of any of the dyestuffs appearing on List "A" may export in any month an amount of such dyestuffs not in excess of 3 per cent of his total monthly production thereof, upon orders accompanied by export licenses issued by the Board of Economic Warfare.

(d) *Return of excess dyestuffs to manufacturers.* Each person, other than a manufacturer of dyestuffs, who, on the effective date of this Order, shall have in his inventory, or who shall acquire prior to April 1, 1942, an amount of any of the dyestuffs appearing on List "A" which required the use of anthraquinone or anthraquinone derivatives in the manufacture thereof, in excess of the amount thereof scheduled to be used by him prior to April 30, 1942, shall, within five days after the effective date of this Order, or after the receipt of such subsequent acquisition, as the case may be, resell, or return for credit, to the manufacturer thereof, such excess amount, and shall deliver the same as instructed by the said manufacturer.

(e) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver any dyestuffs to any person, if he knows, or has reason to believe, such material is to be used in violation of the terms of this Order.

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time. No reports or questionnaires are to be filed by any person until forms therefor have been prescribed by the War Production Board.

(g) *Miscellaneous provisions.*—(1) *Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of dyestuffs conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense

work, may appeal to the War Production Board by letter or telegraph, Reference M-103, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the use of material in all articles hereafter manufactured, irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. In so far as any other Order of the Director of Industry Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of any dyestuffs in the production of any article, the limitation of such other Order shall be observed.

(4) *Violations or false statements.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this Order. (i) "Dyestuffs" means any coloring matter, with the exception of coloring matter the chemical constituents whereof are entirely inorganic in nature. As used herein, the word "dyestuffs" does not include inorganic pigments which may be extended or otherwise processed with substantially colorless organic material, and shall not include dyes certified under the provisions of the Federal Food, Drug and Cosmetic Act (52 Stat. 1040, Ch. 675) and which are sold and used exclusively for use in foods, drugs, and cosmetics, as defined in the said Act.

(6) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 927—NICKEL

GENERAL PREFERENCE ORDER NO. M-6-a (AS AMENDED MARCH 30, 1942)

Section 927.2 (*General Preference Order M-6-a*) is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nickel for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 927.2 *General Preference Order M-6-a*—(a) *Definition*. (1) "Nickel" means and includes:

- (i) Any primary metallic nickel, either alloyed or unalloyed, ferro nickel, and nickel matte of any description;
- (ii) Any solutions, concentrates, residues, or speiss containing nickel (commercially recoverable);
- (iii) Nickel salts, oxides and carbonates.

(b) *Applicability of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Directions as to deliveries and melting; allocations*. Hereafter, no person shall make or accept delivery of nickel unless specifically authorized by the Director of Industry Operations: *Provided, however*, That nickel may be delivered without the specific authorization of the Director of Industry Operations to the Metals Reserve Company or to any other Corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended (15 U.S.C., section 606 (b)), or to any duly authorized agent of such Corporation. The Director will from time to time allocate the supply of nickel and specifically direct the manner and quantities in which deliveries thereof may be made and accepted; and the Director may also issue specific directions as to the manner and quantities in which allocations of nickel may be melted or otherwise processed for particular purposes or end uses. In his discretion, the Director may require any person seeking to place a purchase order for nickel to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(d) *Applications for nickel*. Unless otherwise ordered by the Director of In-

dustry Operations, no person shall be entitled to receive an allocation of nickel unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and any supplier with whom he may have placed a purchase order for nickel, Form PD-27, or such other form as may be from time to time prescribed by the War Production Board, in the manner indicated on such form. Failure by any person to file an application in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations that such person does not desire an allocation of nickel during the period to which the same would have been applicable.

(e) *Violations or false statements*. Any person who willfully violates this Order, or who any act¹ or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(f) *Communications to War Production Board*. All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C. Reference: M-6-a.

(g) *Effective date*. This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, as amended 6 F. R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1035—GLYCERINE

GENERAL PREFERENCE ORDER NO. M-58

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Glycerine for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1035.1 *General Preference Order M-58—(a) General restriction on deliveries effective May 1, 1942.* Beginning with May 1, 1942, no Refiner, Producer, or Distributor shall in any calendar month deliver to any person, and no person shall in any calendar month accept delivery of, more than 50 pounds of Glycerine, except as may be specifically authorized by the Director of Industry Operations. Prior to the commencement of each calendar month, beginning with May, 1942, the Director of Industry Operations will issue to all Refiners and Producers and directly or indirectly to all Distributors specific directions covering deliveries of Glycerine which may be made by such Refiners, Producers or Distributors during such month. Such directions will be made to insure the satisfaction of all defense requirements and, insofar as possible, to provide an adequate supply for essential civilian uses, and they may be made at the discretion of the Director of Industry Operations without regard to any preference rating assigned to particular

contracts or orders. If the Director of Industry Operations shall not have issued by the first day of any month directions covering deliveries of Glycerine during such month, Refiners, Producers or Distributors may make deliveries of Glycerine free of the restrictions provided by this paragraph (a).

(b) *Restrictions on use and inventory*—(1) *Prohibited use.* No person shall use or consume Glycerine in the manufacture of any anti-freeze product or preparation.

(2) *Curtailment in uses.* No person shall use or consume in any calendar month, beginning with April 1942, in any manufacturing process or use other than the use prohibited by paragraph (b) (1) hereof more Glycerine than seventy percent (70%) of one-twelfth of his use or consumption of Glycerine in such process or use during the calendar year 1940; *Provided, however,* That nothing in this paragraph (b) (2) contained shall prevent the continued use or consumption of Glycerine for (i) any use required for the purpose of filling any defense order, or (ii) the manufacturing or processing of Health Supplies, as defined by General Preference Order P-29, as amended from time to time.

(3) *Inventory restrictions.* No person shall in any month except as may be authorized by the Director of Industry Operations accept delivery of Glycerine if his inventory of Glycerine is, or by such acceptance will become, in excess of one-twelfth of the Glycerine used and sold by him during the calendar year 1940 or, if such person was not in the business of using or selling Glycerine continuously during such year, then in excess of such amount as may be fixed by the Director of Industry Operations; *Provided, however,* That to the extent that a person's inventory consists, or through the acceptance of the proposed delivery would consist, of Glycerine used in filling Defense Orders (and the manufacture or processing of Health Supplies as defined in paragraph (b) (2) hereof), deliveries may be accepted if such inventory is not or would not exceed one-eighth of his year's consumption or sales based on his current method and rate of operations; and *Provided further,* That nothing in this paragraph shall be construed to restrict the delivery of crude Glycerine to any Refiner, nor to prevent a person's taking delivery of his normal purchasing unit of Glycerine (for example, can, drum or carload).

(4) *Required certificate.* Except as to deliveries specifically authorized by the Director of Industry Operations, no person shall make delivery of more than 50 pounds of Glycerine in any month to any other person (except delivery of crude Glycerine to a Refiner) unless and until he shall have received from the deliverer a certificate signed by the deliverer or on his behalf by an individual authorized to sign for him, in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the Glycerine hereby ordered will not when delivered and taken in conjunction with the Glycerine held by the undersigned

constitute an inventory thereof in excess of the quantity permitted by General Preference Order No. M-58, with the terms of which the undersigned is familiar.

Purchaser
By _____;
Signature and title

Date _____

Provided, however, That Form PD-362 similarly signed by such deliverer and covering the Glycerine to be delivered, may be received in lieu of such certificate.

(c) *No deliveries in violation of use and inventory restrictions.* No person shall hereafter sell or deliver Glycerine if he knows, or has reason to believe, that such Glycerine is to be used, accepted or accumulated in violation of the terms of this Order.

(d) *Applications and reports.* (1) Each person who orders for delivery in any calendar month a quantity of Glycerine in excess of 50 pounds, whether for own consumption or use (including refining) or resale, shall submit to his Supplier with his order a copy of Form PD-362, properly executed by him, and shall send the original thereof to the War Production Board.

(2) Each Refiner or Producer shall in each month submit to the War Production Board Form PD-363, in duplicate, properly executed by him, scheduling the deliveries of Glycerine which he proposes to make during the succeeding month.

(3) Each person who in any one of the six months ending March 31, 1942 used, consumed or resold more than 50 pounds of Glycerine shall report to the War Production Board on or before May 1, 1942, on Form PD-361.

(4) All Refiners, Producers and Distributors and persons ordering or receiving Glycerine from any one or more of them, and such other persons as may be directed by the Director of Industry Operations shall make such other or further reports and furnish such information, at such times, in such form and with respect to such matters as the Director of Industry Operations may from time to time prescribe.

(i) "Glycerine" means any and all concentrations of glycerol, from whatever source derived and whether crude or refined.

(ii) "Producer" means any person engaged in the production of Glycerine and includes any person who has Glycerine produced for him pursuant to toll agreement but does not include any Refiner of Glycerine.

(iii) "Refiner" means any person engaged in the refining of Glycerine.

(iv) "Distributor" means any person who has purchased or purchases Glycerine for purposes of resale.

(v) "Supplier" means any Refiner, Producer, Distributor or other person who sells or offers for sale Glycerine.

(2) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1,

as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Intra-company transactions.* The prohibitions or restrictions contained in this Order, with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single enterprise, to another branch, division, or section of the same or any other enterprise under common ownership or control.

(4) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Glycerine conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(5) *Violations or false statements.* Any person who willfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(6) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: M-58.

Provided, That a manufacturer may use more than his quota of iron and steel or zinc under this subparagraph if, but only if, he reduces his corresponding quota under subparagraph (2) by an equivalent amount of iron and steel or zinc.

(2) During the three months' period beginning with the first day of the first calendar month following the rate of issuance of this Order, no manufacturer shall use

(i) More iron and steel in his total production of:

(a) Group I Products than 22½ per cent of his aggregate use of scarce materials in the production of such products in the base period;

(b) Group II Products than 17½ per cent of his aggregate use of scarce materials in the production of such products in the base period; or

(c) Group III Products than 12½ per cent of his aggregate use of scarce materials in the production of such products in the base period;

Except that a manufacturer may use in the production of Group I or Group II Products any part of his quota of iron and steel for Group III Products, and may use in the production of Group I Products any part of his quota of iron and steel for Group II Products: *Provided*, That he reduces his quota of iron and steel for Group III or Group II Products, as the case may be, by an equivalent amount.

(ii) More zinc in his total production of Group II and Group III Products than 12½ per cent of the zinc used by him in the production of such products during the base period.

(3) Effective the first day of the fourth calendar month following the date of issuance of this Order, no manufacturer shall use any scarce materials or other metals in the production of Group III Products.

(4) Nothing in this Order shall limit the manufacture or production of electrical appliances, cutlery, and silver plated hollow-ware.

(c) *Avoidance of excessive inventories.* Manufacturers of Group I, Group II and Group III Products shall not accumulate for use in the manufacture of such products, inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of such products at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports

and questionnaires as said Board shall from time to time prescribe.

(g) *Violations.* Any person who willfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any materials subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production of Group I, Group II and Group III Products to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(i) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance therewith would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Routing of correspondence.* All reports to be filed, appeals, and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L-30.

(l) *Effective date.* This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. PART 1130—ELECTRICAL APPLIANCES

GENERAL LIMITATION ORDER L-65

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of electrical resistance material and other materials for defense, for private account and for export; and the following Order is

deemed necessary and appropriate in the public interest and to promote the national defense:

§ 130.1 *General Limitation Order L-65*—(a) *Definitions.* For the purposes of this Order:

(1) "Electrical appliances" means:

(i) Any domestic or commercial appliances which

(a) have as functional parts electrical heating elements of a total rated wattage not in excess of 2500 watts, or

(b) are powered by an electrical vibrator or electrical fractional horsepower motor, and

(ii) Heating units (of any wattage) to be incorporated in electrical appliances or in new domestic electric ranges.

"Electrical appliances" include articles listed in Schedule "A" attached hereto, but that list is not intended to be exhaustive and all appliances coming within the foregoing definition are to be considered "Electrical appliances" for the purpose of this Order, except the following: laundry equipment, vacuum cleaners, refrigerating and air conditioning equipment, commercial dishwashing equipment, fans and electric heating pads, as well as record-players, oil furnaces, vending and gaming machines, clocks, motion picture projectors and other photographic equipment, and other electrical items which are not customarily classified as domestic or commercial electrical appliances.

(2) "Manufacturer" means any person who manufactures parts for electrical appliances as well as any person who produces finished electrical appliances whether or not he manufactures any parts therefor.

(3) "Factory sales value" means the aggregate value of shipments of electrical appliances at regular manufacturers' selling prices.

(4) "Electrical resistance material" means material to be incorporated in electrical appliances in the form of ribbon or wire in which either nickel or chromium, or both, are used to create electrical resistance for the development of heat.

(b) *General restrictions.* (1) From his inventory of electrical resistance material on the effective date of this Order, each manufacturer shall

(i) First, set aside sufficient electrical resistance material to fill all orders on hand on said date bearing a preference rating of A-10 or higher;

(ii) Next, set aside and hold as a reserve for future disposition by the War Production Board 15 percent by weight of his balance of such electrical resistance material (This reserve shall be composed, if possible, of "A" grade round wire containing approximately 80 percent nickel and 20 percent chromium, but if sufficient stocks of "A" wire are unavailable the balance of the reserve shall be composed of "C" grade round wire containing approximately 65 per cent nickel, 15 per cent chromium, and the balance iron);

(iii) Next, at his option, set aside sufficient electrical resistance material to

complete the electrical appliances, the production of which is permitted under the terms of paragraph (b) (4);

(iv) Next, at his option, set aside a reserve of electrical resistance material for replacement parts for electrical appliances not to exceed one and one-half times by weight the amount of such material used for such purposes in 1940; and

(v) Finally, set aside all remaining electrical resistance material for future disposition by the War Production Board, except that a manufacturer may sell to other manufacturers additional quantities of electrical resistance material needed by them to complete production of electrical appliances permitted them under the provisions of paragraph (b) (4).

(2) During the period from the effective date of this Order to May 31, 1942, inclusive, no manufacturer in the production of electrical appliances shall

(i) Put into process any tin in pig or block form;

(ii) Use any alloy steel, copper or copper base alloy that was not processed beyond the first blanking stage on the effective date of this Order; or

(iii) Use any aluminum that was not processed beyond the first blanking stage or case in final form on the effective date of this Order.

(3) During the period from April 1, 1942, to May 31, 1942, inclusive, no manufacturer shall use in the production of electrical appliances any nickel for plating.

(4) During the period from the effective date of this Order to May 31, 1942, inclusive, no manufacturer shall produce electrical appliances (except under orders or contracts bearing preference ratings of A-10 or higher)

(i) Having a total factory sales value greater than 25 per cent of the total factory sales value of electrical appliances produced by him in the calendar year 1941; or

(ii) Containing more electrical resistance material by weight than 15 per cent of the aggregate weight of such material contained in the electrical appliances produced by him in the calendar year 1941.

(5) Effective June 1, 1942, no manufacturer shall produce any electrical appliances except in fulfillment of orders or contracts bearing preference ratings higher than A-2.

(6) The restrictions of paragraphs (b) (4) and (b) (5) shall not be construed to limit in any way the manufacture of replacement parts for electrical appliances.

(c) *Inventory restrictions.* No manufacturer shall receive delivery of materials in the form of raw materials, semi-processed materials, finished parts or sub-assemblies for use in the manufacture of electrical appliances in a greater amount than is necessary for completion of production of the electrical appliances and replacement parts permitted under the terms of this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for

not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file a report on Form PD-370 with the War Production Board within 15 days of the effective date of this Order indicating

(i) His total inventory of electrical resistance material as of the effective date of this Order.

(ii) the quantities of such material reserved by him under each of the subdivisions of paragraph (b) (1), and

(iii) his proposed use of electrical resistance material from the effective date of this Order to May 31, 1942, as provided for under the provisions of paragraph (b) (4)

and such other reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who willfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* (1) Except as provided in paragraph (1) (2), insofar as any other Order issued, or to be issued hereafter, limits the use of any other material in the production of electrical appliances, the restrictions in such other Order shall govern unless otherwise specified therein.

(2) During the period from the effective date of this Order to May 31, 1942, inclusive, the provisions of Conservation Orders No. M-1-e, M-6-b, M-9-c, M-21-d, and M-43-a restricting the use by manufacturers of aluminum, nickel, copper and copper base alloys, alloy steel and tin in the production of electrical appliances shall no longer apply to such production, but shall be superseded by the provisions of this Order.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1

(Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., REF: L-65.

use and consumption of such material in 1941.

(4) The fact that any of the foregoing materials may have been purchased with the aid of a preference rating shall not enlarge or otherwise affect the restrictions on deliveries provided for by this paragraph (b).

(c) *Restrictions on use.* In the manufacture of printing ink, no producer shall:

(1) Use in any calendar quarter, beginning with the quarter commencing April 1, 1942, any one of the materials listed in paragraph (b) hereof (or in the case of organic pigments, any one class of organic pigment) in excess of the rate at which delivery of any such material (or class of organic pigment) is permitted by such paragraph (b).

(2) Use any oil soluble toner in any black ink, nor a toner of any form in news ink.

(3) Use any alkali blue or other organic toner as a toner for black ink in excess of eight percent (8%), by weight, of such black ink where such alkali blue or other organic toner is in paste form or, where in the form of dry color, then in excess of four percent (4%), by weight, of such black ink.

(4) Use any glycerol phthalate resins or phenolic resins for the production of any gloss ink, non-scratch ink or gloss overprint varnish.

(d) *Prohibitions against sales or deliveries of materials.* No person shall hereafter sell or deliver any of the materials named in paragraph (b) hereof to any other person if he knows or has reason to believe such material is to be used in violation of the terms of this Order.

(e) *Miscellaneous provisions—*(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a decrease of unemployment which would be unreasonably disproportionate compared with the amount of materials conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations on Form PD-344. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-53.

(1) The Producer;

(2) Any Supplier who has received from a Producer or another Supplier a purchase order or contract to which such Producer or other Supplier has applied the rating hereby assigned and which such Supplier, subject to paragraphs (b) (2) and (d) (2) hereof, is entitled to extend.

(d) *Restrictions on use of rating—(1) Restrictions on producer.* The Producer may apply the rating only to those quantities of Ink Materials that are authorized by paragraph (f) hereof.

(2) *Restrictions on supplier.* (i) No Supplier may apply the rating to obtain material in greater quantities or on earlier dates than required to enable him to make a rated delivery on schedule or to replace in his inventory material so delivered. If he has an inventory of such material, he shall not be deemed to require such material if he can make his rated delivery and retain a practicable minimum working inventory.

(ii) A Supplier who supplies material which has been manufactured, processed, assembled or otherwise physically changed by him, may not apply the rating to restore his inventory to a practicable working minimum unless he applies the rating before completion by him of the rated delivery which reduces his inventory below such minimum.

(iii) A Supplier who deals in material without manufacturing, processing, assembling or otherwise physically changing the same, may delay applying ratings to purchase orders to be placed by him until he has accumulated such purchase orders to the extent necessary to place a purchase order for the minimum quantity procurable on his customary terms, provided that he shall not apply any rating more than three months after it is applied to the related delivery to be made by him.

(e) *Application of preference rating and procedure in placing rated orders.*

(1) The Producer or any Supplier, in order to apply the preference rating assigned hereunder to deliveries to him, must endorse on each purchase order or contract a statement in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by a duly authorized official:

Preference Rating A-5 authorized by Preference Rating Order No. P-94, with the terms of which Order the undersigned is familiar.

(Name of producer or supplier)

By _____
(Duly authorized official)

Such endorsement shall constitute a representative to the War Production Board

and the Supplier to whom the purchase order or contract is delivered that such purchase order or contract is duly rated in accordance herewith. Such Supplier to whom the purchase order or contract is delivered shall be entitled to rely on such representation, unless he has reason to believe it to be false.

(2) A Supplier who has received from two or more Producers or Suppliers endorsed purchase orders or contracts for material to the delivery of which the same rating has been applied in accordance with this order, may (within the limitations of paragraph (d) hereof) include in a single purchase order or contract any or all of the material which he in turn requires to make his rated deliveries, but must specify in the endorsement on such single purchase order or contract all the purchase orders or contracts which have been so received by him and to fill which he is applying the preference rating.

(3) Each Producer and each Supplier wishing to obtain material under the rating assigned by this order shall apply in the first instance to his regular Supplier or if such Producer or Supplier has more than one regular Supplier, then to his regular Suppliers in accordance with such Producer's or Supplier's normal business custom; but this paragraph shall not be construed to prevent such Producer or Supplier, if unable to obtain material of the kinds and quantities desired from his regular Supplier or Suppliers, from applying elsewhere.

(f) *Limitation on amount of deliveries of ink materials under assigned rating.* No Producer in any calendar month commencing with April 1942 shall receive delivery of:

(1) A quantity of any one of the following named Ink Materials (whether in the form of dry color or of dry or wet dispersions) under a purchase order or contract to which he has applied a rating under this order in excess of fifty percent (50%) of his average monthly use of such one Ink Material in 1941:

Chrome Yellows and Oranges
Molybdate Orange
Chrome Green
Orange Mineral

(2) A quantity of any one class of Organic Pigment (whether in the form of dry color or of dry or wet dispersions) under a purchase order or contract to which he has applied a rating under this order in excess of fifty percent (50%) of his average monthly use of such one class of Organic Pigment in 1941.

(3) A quantity of any one of the following named Ink Materials under a purchase order or contract to which he has applied a rating under this order, in excess of eighty percent (80%) of his average monthly use of such one Ink Material in 1941:

Ester Gum
Zincated Rosin
Iron Blues (dry color or dry or wet dispersions)

(g) *Records, audits and reports.* (1) Each Producer and each Supplier who applies the preference rating hereby assigned shall keep and preserve for a

period of at least two years accurate and complete records and information concerning purchases (including orders and deliveries) stocks on hand and sales of Material covered by each application of the rating, and shall submit from time to time for audit and inspection to representatives of the War Production Board concerning the matters referred to in paragraph (f).

(2) Each Producer shall on or before the 15th day of each month commencing with April, 1942 report to the War Production Board, Washington, D. C., on Form PD-345, listing among other things the Ink Materials received by him during the preceding month to which such Producer had applied the preference rating assigned hereunder, and the average monthly use of each such Ink Material during 1941. In addition to such report, each Producer and each Supplier shall furnish such information at such times with respect to such matters and on such other forms as may from time to time be prescribed by the War Production Board.

(h) *Restrictions on use of material obtained under the rating.* Each Producer must use the Ink Material delivered to him pursuant to the rating hereby assigned, or an equivalent amount of Ink Material in the manufacture of Printing Inks. In no event shall any Producer use Ink Materials delivered to him pursuant to the rating hereby assigned in violation of the provisions of any Conservation Order issued by the Director of Industry Operations.

(i) *Miscellaneous provisions—(1) Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C. Ref.: P-94"

(2) *Violations.* Any person who willfully violates any provision of this Order or who falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(3) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(4) *Effective date.* This Order shall take effect immediately, and shall continue in effect to and including June 30, 1942. (P.D. Reg. 1, as amended 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527;

(i) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref: L-67", setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

PART 1138—ANTIMONY

GENERAL PREFERENCE ORDER M-112

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of antimony for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1138.1 *General Preference Order M-112*—(a) *Definitions*. For the purposes of this Order:

(1) "Antimony" means and includes:

(i) Ores and concentrates, including beneficiated or treated forms, commercially recognized.

(ii) Antimony metal, otherwise known as "regulus" and the element antimony in commercially pure form.

(iii) Ligated antimony, sometimes known, respectively, as "needle antimony", "crude antimony", or "crudum", which is in any case the result of separating antimony sulphide from antimony ores by fusion, without essential chemical change.

(iv) Any alloy containing 50 per cent or more by weight of antimony, as defined in (i), (ii), and (iii) above.

(v) All chemical compounds containing antimony as an essential and recognizable component.

(b) *Applicability of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries*—(1) *Allocations*. Hereafter, no person shall deliver or accept delivery of antimony as defined herein except as specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of antimony and specifically direct the manner and quantities in which deliveries to particular persons and for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for antimony to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(2) *Reports*. (i) Unless otherwise ordered by the Director of Industry Operations, and except as permitted by the provisions of paragraph (c) (2) (iii) hereof, no person shall be entitled to receive an allocation of antimony unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and with any supplier with whom he may place an order for antimony, an application on Form PD-381, and in addition shall have filed with the War Production Board a report on Form PD-380.

(ii) Every person who, on the effective date of this Order has in his possession or under his control a quantity of antimony as herein defined, in excess of 100 pounds (in antimony content), shall file with the War Production Board a report on Form PD-380 on or before April 20, 1942, whether or not such person applies for an allocation of antimony.

(iii) Any person who shall have filed with the War Production Board a report on Form PD-380 as required by paragraph (c) (2) (ii) on or before April 20, 1942, and who thereafter makes application in accordance with the provisions of paragraph (c) (2) (i) for an allocation of 448 pounds or less of contained antimony, need not file a further report on Form PD-380 with such application: *Provided*, That such person's inventory of antimony for the calendar month in which delivery is requested on his application, including the quantity applied for, will not exceed 672 pounds of contained antimony.

(iv) Failure by any person to file an application as required by paragraph (c) (2) (i) may be construed as notice to the Director of Industry Operations and to all suppliers of antimony that such person does not desire an allocation of antimony for the succeeding month.

(d) *Special directions*. The Director of Industry Operations may from time to time issue specific directions with respect to the permissible kind or quantity of antimony in the composition of any material or product, and he may also in his discretion, direct the use of antimony-bearing lead scrap, secondary antimony-bearing lead alloys, or any other practicable substitute, in lieu of antimony in the production of any materials or products.

(e) *Restrictions on use of antimony in certain products*—(1) *Prohibited uses*. Effective July 1, 1942, no person shall use antimony in any form, including the antimony content of any alloys, scrap or secondary material, in the preparation, processing, or manufacture:

(i) Of pigments or opacifiers for paints, lacquers or enamels, including ceramic enamels.

(ii) Of toys, or decorative or ornamental objects or parts thereof.

(2) *Limitation on use in metals and alloys*. Hereafter, no person shall use more than 0.5 % by weight of antimony in the composition of any metal or alloy, unless a higher percentage of antimony content is required by specification, and in no event shall such antimony content

exceed by more than 0.5 %, the minimum specified.

(3) *Limitation on use of new antimony for automotive batteries*. Effective July 1, 1942:

(i) The quantity of new antimony which may be used by any person in the production of alloys for automotive batteries shall be limited in any calendar month to not more than 7 per cent of the total contained antimony used by him for such purposes during the same period. (The balance of antimony required by such person in the production of such alloys shall be obtained from antimony-bearing scrap or secondary alloys.)

(ii) The antimony content of alloys used by any person in the production of grids for automotive batteries shall be limited as nearly as practicable to a maximum of 7 % by weight, and shall in no event exceed 7.5 % by weight.

(f) *General exceptions*. Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (e) (1) and (e) (3) shall not apply to the use of antimony in the manufacture of any item which is being produced:

(1) For delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) if in any such case the use of antimony to the extent employed is required by the specifications of the prime contract.

(g) *Violations or false statements*. Any person who wilfully violates this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(h) *General imports order M-63 unaffected*. Nothing contained in this Order shall be construed as altering or modifying in any way the provisions of General Imports Order N-63¹ applicable to antimony.

(i) *Communications to War Production Board*. All reports required to be filed hereunder, and all communications concerning this Order, shall unless otherwise directed, be addressed to the Antimony Branch, War Production Board, Temporary R Building, Washington, D. C., Reference: M-112.

¹ 6 F.R. 6796; 7 F.R. 206, 223, 2094.

(j) *Effective date.* This Order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 31st day of December, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 3 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March, 1942.

PART 1363—FEEDINGSTUFFS

REVISED PRICE SCHEDULE NO. 73³ AS
AMENDED—FISH MEAL AND FISH SCRAP

A statement of the considerations involved in the issuance of Revised Price

Schedule No. 73 as amended, has been prepared and is issued simultaneously herewith.⁴

The title, preamble, and §§ 1363.1 to 1363.10, inclusive, are renumbered and amended to read as set forth herein:

The Office of Price Administration has now completed its investigation of the fish meal industry. Upon the basis of this investigation it is the judgment of the Price Administrator that the maximum prices for fish meal established by Revised Price Schedule No. 73 are consistent with the standards and limitations of the Emergency Price Control Act of 1942, applicable to a permanent maximum price regulation. Accordingly, such prices have been continued in effect.

However, the Price Administrator has determined that Revised Price Schedule No. 73 should be amended to make certain minor adjustments and to clarify certain provisions. Moreover, the investigation disclosed that the prices for fish scrap, which is the raw material for fish meal, have risen in some cases above the maximum prices established for fish meal. In order to correct this situation, the Administrator has further determined that Revised Price Schedule No. 73 should be amended to establish maximum prices for fish scrap.

Should unwarranted price rises occur at stages of distribution not covered by Revised Price Schedule No. 73 as amended, appropriate action will be taken by this Office.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1⁴ issued by the Office of Price Administration, Revised Price Schedule No. 73 as amended, is hereby issued.

AUTHORITY: §§ 1363.1 to 1363.12, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1363.1 *Maximum prices for fish meal and fish scrap.* On and after March 28, 1942, no person shall sell or deliver fish meal or fish scrap, and no person shall buy or receive fish meal or fish scrap in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1363.12, and no person shall agree, offer, solicit or attempt to do any of the foregoing, except that contracts entered into prior to January 20, 1942; providing for prices for fish meal higher than the maximum prices and contracts entered into prior to March 28, 1942, providing for prices for fish scrap higher than the maximum prices may be carried out at the contract prices. Maximum prices shall include commissions and all other charges and shall not be increased by any charges for the extension of credit.

§ 1363.2 *Exempt sales.* The provisions of this Revised Price Schedule No. 73 as amended, shall not apply to sales at retail.

§ 1363.3 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1363.12) may be charged, demanded, paid or offered.

§ 1363.4 *Conditional agreements.* No seller of fish meal or fish scrap shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1363.12, in the event that this Revised Price Schedule No. 73 as amended, is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or exception) has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendments (or for adjustment or exception as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or exemption).

§ 1363.5 *Evasion.* The price limitations set forth in this Revised Price Schedule No. 73 as amended, shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to fish meal or fish scrap alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or tying-agreement or trade understanding, or otherwise.

§ 1363.6 *Records and reports.* (a) Every person making a purchase or sale of fish meal or fish scrap (except purchases or sales at retail) in the course of trade or business or otherwise dealing therein after January 20, 1942, in the case of fish meal, and after March 28, 1942, in the case of fish scrap, shall keep for inspection by the office of Price Administration, for a period of not less than one year, complete and accurate records of each such purchase or sale, including the date thereof, the name of the seller or purchaser, the amount sold or purchased, the price paid or received, and the grade of fish meal or fish scrap sold or purchased.

(b) Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

§ 1363.7 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 73 as amended, are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 73 as amended or any price sched-

FEDERAL TRADE COMMISSION.

[Order No. 4740]

IN THE MATTER OF BENJAMIN L. GRABOSKY
AND SAMUEL GRABOSKY, INDIVIDUALS,
TRADING AS GRABOSKY BROTHERS

COMPLAINT AND NOTICE

The Federal Trade Commission, having reason to believe that the parties re-

spondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (d) of section 2 of the Clayton Act (U.S.C. Title 15, Section 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondents, Benjamin L. Grabosky and Samuel Grabosky, are copartners trading as Grabosky Brothers, having their principal office and place of business at Northeast Corner 11th and Wood Streets, Philadelphia, Pennsylvania. Respondents operate and maintain manufacturing plants at Philadelphia, Pennsylvania, and at Perth Amboy, New Jersey.

PAR. 2. Respondents are now, and have been since June 19, 1936, engaged in the manufacture, sale and distribution of cigars. Respondents sell and distribute their cigars to purchasers in the various states of the United States and in the District of Columbia, and cause the said cigars, when sold, to be shipped and transported from the states in which they are manufactured across state lines to the purchasers thereof in other states of the United States and in the District of Columbia. There is, and has been at all times mentioned herein, a constant current of trade and commerce in the said cigars between the respondents and purchasers in other states. Respondents' cigars are sold by them for use, consumption or resale within the United States and in the District of Columbia.

PAR. 3. In the course and conduct of their business respondents sell their cigars to retail drug chains and to independent retailers, who in turn sell to the consuming public. Respondents, since June 19, 1936, have contracted to make and have made, and are now making, valuable payments to some of their chain store customers selected by respondents, as compensation or in consideration for the furnishing by the said selected customers of services or facilities, such as counter, show case or window displays, for the advertising of respondents' cigars. Respondents have not made such payments or considerations available on proportionally equal terms to all of their customers competing with the aforesaid compensated customers in the distribution of respondents' cigars.

As example of these practices respondents, during such period, as consideration for the aforesaid displays, have contracted to pay and have paid some chain store customers \$1.50 per month per branch store, the total monthly payments amounting to as much as \$255.00 to a single customer. With other chain store customers respondents have contracted to pay and have paid, during such period, flat sums for the said displays amounting to as much as \$500.00 per month to a single customer. Although often requested so to do by respondents' independent retailer customers and other chain store customers competing with these compensated customers, and who are able and willing to furnish the same services and facilities, respondents

have refused to make such payments available to them on proportionally equal terms, or on any terms.

PAR. 4. The above-described acts and practices of respondents are in violation of subsection (d) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, section 13).

Wherefore, the premises considered, the Federal Trade Commission, on this 26th day of March, A. D. 1942, issues its complaint against said respondents.

Notice

Notice is hereby given you, Benjamin L. Grabosky and Samuel Grabosky, individuals, trading as Grabosky Brothers, respondents herein, that the 1st day of May, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission

such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 26th day of March, A. D. 1942.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION.

IN THE MATTER OF RICHARD MAHONEY COMPANY, INCORPORATED, 606 EMPIRE STATE BUILDING, SPOKANE, WASHINGTON

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of March, A. D. 1942.

1. Richard Mahoney Company, Incorporated, a Washington corporation, is registered with this Commission as an over-the-counter broker-dealer pursuant to section 15 of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether its registration as such should be suspended or revoked.

2. George Fitzgerald is president and director of the registrant, the owner of all of its outstanding stock (except for the qualifying shares), and is in full control of the registrant.

3. The order instituting this proceeding stated that members of the staff had reported to the Commission information obtained as a result of an investigation, which tended to show that:

A. During the period extending through March and April 1940, registrant sold stock of Callahan Consolidated Mines, Inc., to various persons. In making and inducing such sales, registrant, through Fitzgerald and others, falsely represented to purchasers that:

(1) The current market price of the stock was 17½ cents per share, when the fact was, as registrant well knew, that the current market price was considerably less than that figure;

(2) Registrant had advance "inside" information that Callahan Consolidated Mines, Inc., was about to open up a rich body of ore, when the fact was, as registrant well knew, that no such rich body of ore had been discovered and registrant had no information from which it could have been reasonably concluded that such a discovery would be made;

(3) Callahan Consolidated Mines, Inc., was ready to go into production, when the fact was, as registrant well knew,

that the company was not ready to go into production and has not yet gone into production;

(4) It was certain that the price of the stock would reach 50 or 75 cents a share within 60 or 90 days from the date of purchase, when the fact was, as registrant well knew, that under the circumstances then existing there was no reasonable basis for such an assertion;

(5) Only a limited amount of stock was available, when the fact was, as registrant well knew, that the stock was freely obtainable and was obtained with apparent ease by the registrant to fill orders.

B. In inducing certain of these sales, registrant stated to prospective purchasers that the price of the stock would increase to 19 cents a share within 10 days or 2 weeks, but omitted to state that the price of the stock would be arbitrarily and artificially stepped up by registrant for the purpose of stimulating sales.

C. The transactions referred to were effected by the use of the mails and instrumentalities of interstate commerce and otherwise than on a national securities exchange.

The Commission's order further stated that the information reported by its staff, as set forth above, tended, if true, to show that the registrant had wilfully violated section 17 (a) of the Securities Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 of the Commission's rules thereunder.

4. The registrant, by George Fitzgerald, its president, has submitted a document entitled "Answer and Consent to Revocation of Registration pursuant to section 15 (b) of the Securities Exchange Act of 1934" in which it acknowledges receipt and service of adequate notice of the proceeding, waives opportunity for hearing, "admits and acknowledges the existence of the facts and the cause of action set forth in the Commission's order for proceedings," and consents to the entry of an order by the Commission revoking its registration as an over-the-counter broker and dealer.

5. We find that the registrant has wilfully violated section 17 (a) of the Securities Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 thereunder, and that it is in the public interest to revoke its registration as a broker and dealer.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of Richard Mahoney Company, Incorporated, as an over-the-counter broker and dealer be, and it hereby is, revoked.

By the Commission (Chairman Purcell and Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

IN THE MATTER OF WILLIAM E. HOUSEL,
11 EAST 44TH STREET, NEW YORK, NEW
YORK

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of March, A. D. 1942.

1. William E. Housel is registered with this Commission as an over-the-counter broker-dealer pursuant to section 15 of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether his registration as such should be suspended or revoked.

2. The order instituting this proceeding stated that members of the staff had reported to the Commission information obtained as a result of an investigation which tended to show that:

A. During the period from May 10, 1937, to about June 28, 1938, respondent sold to various persons Syndicate Membership Interests in Investors Petroleum Syndicate No. 1, an unincorporated association organized by respondent. In making and inducing such sales, respondent falsely represented to purchasers:

(1) That the Syndicate operated entirely for the benefit of its members, when in fact the Syndicate was controlled and operated by respondent for his own benefit;

(2) That the management of the Syndicate was vested in the Chairman of a managing committee assisted by members of that committee and a Trustee who held the property of the Syndicate in trust, when in fact respondent personally and exclusively managed the affairs and controlled the property of the Syndicate at all times;

(3) That all the property of the Syndicate was held by a Trustee, subject to the control of the Chairman and members of the managing committee, when in fact the property was never turned over to a Trustee and remained exclusively under the management and control of the respondent;

(4) That the Syndicate would purchase better quality oil investments for its own account directly from owners of oil lands through its own field organization at "rock bottom prices" thereby saving the usual dealers' profits, when in fact the Syndicate did not and could not so purchase oil investments since it did not have a field organization and all its oil investments were purchased from the respondent himself or from William E. Housel, Inc. (a corporation controlled by respondent); and further that neither respondent nor the said William E. Housel, Inc., was an owner of oil lands and that respondent directly or indirectly realized large dealer profits out of transactions involving the oil investments made by the Syndicate;

(5) That the Syndicate members in their individual purchases of oil investments could eliminate dealers' profits by making such purchases directly from

landowners through the Syndicate's field supervisor, when in fact such a procedure was not possible since the Syndicate did not have an active field supervisor and since all purchases of oil investments by the Syndicate for the accounts of its members were made not from landowners but from respondent or William E. Housel, Inc., in which purchases respondent directly or indirectly received substantial dealer profits;

(6) That the Syndicate received commissions of only 10% of the actual cost of oil investments made by it for its members, when in fact in several instances the Syndicate's profit exceeded that percentage and in one such purchase the Syndicate's profit was in excess of 175% of cost;

(7) That the Syndicate purchased oil investments only for its permanent investment account, when in fact the Syndicate was actively trading at the time in oil investments;

(8) That the Syndicate had statistical facilities, maps, drilling reports, and a reporting service of its own, which were available for general consultation by its members, when in fact the Syndicate did not have any such facilities or service of its own but relied on those owned or controlled by respondent;

(9) That the advice given by the Syndicate to its members in the purchase of oil securities was impartial, when in fact such advice was not and could not have been impartial in that the Syndicate relied entirely upon respondent for such advice and respondent managed and controlled the Syndicate for his own profit, and, directly or through corporations controlled by him, bought from and sold to the Syndicate and its members oil investments at large profits to himself;

(10) That prior to September 17, 1937, the Syndicate had purchased oil investments for its members at prices 30% to 40% below those asked by retail dealers, when in fact the Syndicate had not engaged in any such transactions at that time.

B. During the period from March 1, 1938, to about April 1, 1940, respondent sold to various persons Class A stock of Petroleum Investment Service, Inc., a corporation which respondent caused to be incorporated as a successor to the Syndicate and which respondent controlled through the ownership of the entire issue of 100 shares of Class B common stock, which had the right to elect a majority of the board of directors. In making and inducing such sales, respondent falsely represented to purchasers:

(1) That the Service Company was operated solely for the benefit of the stockholders, when in fact the Service Company was managed, controlled, and operated by respondent solely for his own benefit;

(2) That the Service Company furnished free and unbiased statistical reports to its members and advised them regarding oil investments, when in fact the Service Company did not and could not furnish unbiased reports since it re-

lied entirely on information and advice obtained from the respondent and William E. Housel, Inc., at a time when respondent, directly and through corporations controlled by him, sold to and purchased from the Service Company and its members oil investments at large direct and indirect profits to respondent;

(3) That the only profits made by the Service Company on purchases for its stockholders would be a 10% service charge based on actual cost, when in fact the Service Company had previously sold and continued to sell securities to its stockholders at profits in excess of 10% of the actual cost of such securities.

C. In making and inducing the sales described in subdivision B, respondent stated to purchasers:

(1) That the Service Company had arranged to acquire 5,000 shares of the common stock of Housel Oil Corporation at \$2.50 per share, that the book value of the stock as of March 15, 1938, was in excess of \$4.00 per share, when in fact, as respondent knew but omitted to state, the price of the stock had been arbitrarily fixed by respondent at \$2.50 per share and the book value of \$4.00 per share had been falsely created by respondent in that he controlled Housel Oil Corporation and had arbitrarily reappraised on the books of that corporation at \$116,817.40 certain property acquired by the corporation for \$24,796.59;

(2) That the Service Company was earning 20% or more on its invested capital, when in fact, as respondent knew but omitted to state, such earnings as the Service Company had were those created by the respondent through security dealings which respondent had with the Service Company;

(3) That the Service Company had nothing to sell but service, when in fact, as respondent knew but omitted to state, the Service Company had no facilities of its own for rendering service but relied in rendering such service on information and advice obtained from respondent or corporations controlled by him;

(4) That in the purchase of securities from respondent or William E. Housel, Inc., the cost to the Service Company of such securities would be no more than 110% of the cost to the respondent or William E. Housel, Inc., when in fact, as respondent knew but omitted to state, respondent and corporations controlled by him had sold and intended to sell to the Service Company and its stockholders securities at prices which were greatly in excess of 110% of the cost to respondent or the controlled corporations.

D. Respondent used the mails and instrumentalities of interstate commerce in effecting the transactions and inducing the purchases of securities referred to in subdivisions A, B, and C.

The Commission's order further stated that the information reported by its staff, as set forth above, tended, if true, to show that the respondent had wilfully violated section 17 (a) of the Securities

Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 of the Commission's rules thereunder.

3. The respondent has filed a document entitled "Consent to Revocation of Registration Pursuant to section 15 (b) of the Securities Exchange Act of 1934" in which he acknowledges receipt and service of adequate notice of the proceeding, waives opportunity for hearing, "admits and acknowledges the existence of the facts and/or the cause of action set forth in the Commission's order for proceedings, but denies any intent to violate any law either state or federal in connection therewith," and consents to entry of an order by the Commission revoking his registration as an over-the-counter broker and dealer.

4. We find that the respondent has willfully violated section 17 (a) of the Securities Act of 1933, 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 thereunder, and that it is in the public interest to revoke his registration as a broker and dealer.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of William E. Housel as an over-the-counter broker and dealer be, and it hereby is, revoked.

By the Commission (Chairman Purcell and Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

Secretary.

(b) Northwestern will be merged into Ohio Fuel pursuant to the provisions of the Ohio General Corporation Law, with Ohio Fuel containing as the surviving

corporation. Such merger is to be carried out pursuant to the provisions of the Agreement of Merger which is filed with the applications or declarations.
